This paper is intended as a guide for students working independently on Whole Numbers math.

2) Subtraction

Facts → Under “Flash cards”, go to either “Math Facts” or “Subtraction Practice”

Instructions: **Use the one-minute timer. Get at least 11 problems correct, with at least 90%
You must do this a total of three times.**

☐ Subtraction Facts #1 (Date: _____ Number correct: _____ Percent correct: _____)

☐ Subtraction Facts #2 (Date: _____ Number correct: _____ Percent correct: _____)

☐ Subtraction Facts #3 (Date: _____ Number correct: _____ Percent correct: _____)

Practice → Under “Flash cards”, go to “Subtraction Practice”

Instructions: **Use the five-minute timer. Get at least 4 problems correct, with at least 80%**

☐ 3-digits minus 3-digits (Date: _____ Number correct: _____ Percent correct: _____)
(Digits for first and second number: 3)

☐ 4-digits minus 3-digits (Date: _____ Number correct: _____ Percent correct: _____)
(Digits for the first number: 4 ... Digits for the second number: 3)

Word Problems → Under “Worksheets”, go to “Word problems” and find the links labeled

“Subtraction – Worksheet Generator” and

“Addition AND Subtraction – Worksheet Generator”

Instructions: **For both worksheets, under the Options section, click on “Numbers” → Mixed,
click on “Extra Info” → Sometimes,
then click on “Create Worksheet”**

☐ Subtraction Word Problems (Date: _____)

☐ Addition AND Subtraction Word Problems (Date: _____)

Quiz → Ask your teacher for a **paper copy** of the Subtraction quiz.

Instructions: **The quiz has 10 questions. Your goal is to get at least 8 correct (80%).**

☐ Subtraction Quiz (Date: _____ Percent correct: _____)

Name _____ Term _____ Year _____

This paper is intended as a guide for students working independently on Whole Numbers math.

4) Division

Facts → Under “Flash cards”, go to either “Math Facts” or “Division Practice”

Instructions: **Use the one-minute timer. Get at least 11 problems correct, with at least 90%
You must do this a total of three times.**

☐ Division Facts #1 (Date: _____ Number correct: _____ Percent correct: _____)

☐ Division Facts #2 (Date: _____ Number correct: _____ Percent correct: _____)

☐ Division Facts #3 (Date: _____ Number correct: _____ Percent correct: _____)

Practice → Under “Flash cards”, go to “Division Practice”

Instructions: **Use the five-minute timer. Goals for number and percent correct vary.
Make sure to click on “Allow remainders”

☐ 4-digits divided by 1-digit (Date: _____ Number correct: _____ Percent correct: _____)
(Digits for first the first number: 4 ... Digits for the second number: 1)
(Goal: Get at least 3 correct, with at least 75%)

☐ 4-digits divided by 2-digits (Date: _____ Number correct: _____ Percent correct: _____)
(Digits for the first number: 4 ... Digits for the second number: 2)
(Goal: Get at least 2 correct, with at least 67%)

Word Problems → Under “Worksheets”, go to “Word problems” and find the links labeled
“Word Problems – Multiply and Divide” and
“Word Problems – All four operations”

☐ Multiply and Divide - Word Problems (Date: _____)

☐ All four operations – Word Problems (Date: _____)

Quiz → Ask your teacher for a **paper copy** of the Division quiz.

Instructions: **The quiz has 10 questions. Your goal is to get at least 8 correct (80%).**

☐ Division Quiz (Date: _____ Percent correct: _____)

When you have completed all tasks, you should be ready for the FINAL TEST.
